Grout scrubbing machine		.20 a square foot	

Description of Each Cleaning

Basic Cleaning- A basic cleaning is for a home that may not need any detail work. It is perfect for clients who do not need a general cleaning each time. When choosing this package, you will want to make sure you are looking for a basic cleaning with no buildup of any kind no soap scum, no mold, and no buildup of pet hair. If this is not your home, you will want to go to a general to make sure you are happy with the service you ordered.

General Cleaning – This is our most popular package for a bi-weekly or monthly cleaning. This is a maintenance cleaning for ongoing service. This covers all areas of your home and keeps the dust bunnies away. General cleaning is not a deep cleaning. This cleaning is designed for surface cleaning, light detail cleaning, and maintenance of a home. We clean the same surfaces as a top to bottom but not the same level of detail. Example: General cleaning will high just with a high duster. A top to bottom clean we get on a ladder and hand wipe the fan blades. Most clients will do a top to bottom to get their home up to standard then go to a bi-weekly general cleaning where we maintain the surfaces that we cleaned during the first cleaning.

Top to Bottom Deluxe – This cleaning is just like it sounds, top to bottom. This cleaning covers everything in your home but your walls and inside appliances. We suggest this cleaning for one-time clients, estate cleanings, moveout/move in cleaning, and initial cleanings for homes that have not had a routine cleaning schedule. This cleaning is not a general cleaning. Unlike general cleanings, all surfaces are wet wiped, and detail cleaned.
